Summary

As a B.Tech student in Information Technology at Netaji Subhash Engineering College (NSEC), Kolkata, I see technology not just as a career path, but as a canvas for creativity and problem-solving. Whether it's writing efficient code, analyzing data patterns, or building user-focused applications, I enjoy turning complex challenges into smart, practical solutions. With hands-on experience in real-world projects and a mindset that embraces continuous growth, I bring both technical proficiency and a hunger to innovate. I thrive where curiosity meets code — and I'm eager to contribute to teams that value learning, impact, and forward-thinking solutions.
